## Stand Apart from the MD Crowd: Dual Degrees from St. George's University

With just a few more months and a little extra work, you can graduate with a dual degree that enhances your value and expands your vision.

**Public Health Dual Degree (MD/MPH):** Learn the principles of public health to help your medical practice, hospital, town, city, and community shift the focus of medicine away from treating sickness and toward keeping people healthy. Discover the distinct patterns, and problems, of a community and be a part of the larger health care solution in the 21st century.

Get a jump on your future and start your medical career in a position to make a difference. Apply for the combined MD/MPH and earn a dual degree in less than five years.

If you want to be a part of the solution, contact us today for more information about our dual degree program. Visit our MPH blog to get a firsthand look at our dual degree students who are busy in their field.

*"Integrating a medical and public health degree only enhances your knowledge and skill base. Having gone through the interview process for residency, I think it makes you a stronger candidate, especially if you can really show your commitment to medicine and public health as a joint entity."*

Dhwanishiva Vasabni, MPH '11, MD '12
